

Melanie Zarillo

Hello, my name is Melanie, I've worked for I worked for Torrington area youth service bureau program all summer and I absolutely loved it. I worked at lark from June till august, for the 6-week program. This program gave me the opportunity to learn and understand responsibilities to make my own money and use it responsibly. Over the summer I made over 1000 dollars, I used it to buy myself a MacBook air because I was going into high school, I am 14, and go to northwest regional 7, I am out of district so I am in the Ag program.

Recently I was asked to come back and work for them, I'm now working at the YMCA in Torrington CT and I love it so much it's amazing to work with kids at my age and get paid. It really would change my life if this program was to end.
